Education

Bachelor of Engineering (BE) in Electrical and Electronics Engineering
CKCET, Cuddalore | CGPA: 8.4/10

2021 - 2025

Skills

Soft Skills: Self-Learner, Logical Thinking, Time Management, Adaptability, Problem-Solving, Critical Thinking.

Programming Languages: Java, C and Python.

Databases: MySQL and PostgreSQL.

Frontend: HTML, CSS.

Frameworks & Technologies: Spring, Spring Boot, Spring Security REST APIs, JPA Query, JVM, API Integration, SDLC & STLC, Redis, Debugging, Postgre Sql, JWT, Hibernate / JPA, ORM, Entity Mapping, JPQL, HQL, CRUD Operations, Transaction Management, Query Optimization, Spring Data JPA.

Tools & Platforms: IntelliJ IDEA, Visual Studio Code, Eclipse IDE, Git, GitHub, Postman, Agile (Scrum), Jira.

Experience

Java Developer | Rupenet Technology Solutions

September 2025– July 2026

- Worked on **Fintech** and Banking platforms, developing secure Spring Boot microservices for **Insurance, Loans, Fastag** and **Bus Booking** services with vendor API integrations.
- Built scalable backend APIs using **Java, Spring Boot**, and **Hibernate** for **financial services** including **Insurance, Loans**, and transaction-based systems.
- Integrated **third-party fintech vendors** such as **EDMI** (Insurance), **Creditlink**, **Svatantra**, and **Indifi** (Loans) to enable seamless financial service workflows.
- Implemented secure **REST APIs** with **JWT authentication**, **Redis caching**, and optimized **PostgreSQL/MySQL queries** for high-volume fintech applications.
- Implemented **M2P FASTag** integration using secure **encryption** and **decryption protocols**, developing Spring Boot APIs for **vehicle onboarding** and encrypted vendor communication in fintech applications.
- Integrated **UPI Cashout** services with **ATM QR generation**, allowing users to scan and pay via **UPI** and receive cash instantly, with secure transaction processing and **real-time status tracking**.

Projects

Insurance, Fastag, Loan & Bus Booking

- Developed REST APIs using Java and Spring Boot to integrate EDM I Insurance services for policy-related operations and vendor communication.
- Developed **secure booking workflows** including seat selection, ticket confirmation, and cancellations, ensuring seamless user experience.
- Optimized **RESTful API calls with Java and Spring Boot**, handling JSON data efficiently for reliable performance.
- Implemented **RedBus** partner API integration to **fetch real-time** bus schedules, fares, seat availability, and **booking**
- Integrated **M2P FASTag** APIs using **Java** and **Spring Boot**, implementing secure **AES/RSA-based** encryption and decryption for protected request-response communication and seamless **FASTag** onboarding workflows.

Certifications

- **Java SE11 Developer** – certified by (IOPPC)
- **Introduction to Databases** – Certified by Meta (Coursera)
- **Python Programming Course** – Certified by Google (Coursera)
- **Introduction to Industry 4.0 & Industrial Internet of Things** – NPTEL (Elite Score)

Achievements

- Solved **300+ coding problems** on **HackerRank**, demonstrating strong skills in **data structures, algorithms, and problem-solving**.
